

Safety Data Sheet
-Aluminium oxide pure white-
-Aluminium oxide pure brown-

According to EG 1907/2006 (REACH)

Versions-No.: 05

Valid from: 05/2016
Replaces version No. 04 from 05/2015

1. Identification of substance and company	
1.1 Trade name:	Aluminium oxide pure white Aluminium oxide brown
1.2 Product details:	Mineral blasting abrasives
Product form:	Grain shape, edged
Purpose:	Corundum and normal corundum are used for surface treatment as a blasting or abrasive
1.3 Manufacturer:	Eisenbacher Dentalwaren ED GmbH
Street:	Dr.-Konrad-Wiegand-Str. 9
ZIP/city/Country.:	63939 Woerth / GERMANY
Phone:	+49 9372 - 94 04 0
Fax:	+49 9372 - 94 04 29
Information department:	Klaus Renner +49 9372 - 94 04 - 130 k.renner@eisenbacher.de
Emergency information:	+49 9372 - 94 04 - 130
Email:	info@eisenbacher.de
Homepage:	www.eisenbacher.de
2. Hazards identification	
2.1 Hazard designation:	Not subject to labeling in the sense of the Directives on Dangerous Preparations 1999/45/EC. When applying any of silicosis.
Information pertaining to particular dangers for man and environment:	Possible dust in particulate matter.
User:	Skilled personnel (Dental technicians, dentists)
Classification system:	no classification
2.2 Hazard warning:	No substance with a stipulated EC safety limit contained.
2.3 Other hazards in the supply and processing of the alloy:	Inhalation of grinding dust, irritation of the skin and eyes.
3. Composition/Data on components	
The hazards in Sections 4 to 8 and 10 to 12 do not relate to the product itself, rather discusses the substances resulting from the proper use dusts.	
3.1 Chemical Characterization	EINECS CAS NR.
Aluminiumoxid (Al ₂ O ₃)	215-691-6 1344-28-1
Titanoxid (TiO ₂)	236-675-5 13463-67-7
Hazardous ingredients No hazardous ingredients contained	
Other ingredients	
	NK NK-Mikro EK EK-Mikro EK
Aluminiumoxid (Al ₂ O ₃)	95,65% 95,77% 99,73% 99,69% 99,30%
Titanoxid (TiO ₂)	2,24% 2,79%
Ingredients with EC-limits: No substance with a stipulated EC safety limit contained.	

Safety Data Sheet

-Aluminium oxide pure white-

-Aluminium oxide pure brown-

According to EG 1907/2006 (REACH)

Versions-No.: 05

Valid from: 05/2016
Replaces version No. 04 from 05/2015

4. First aid measures	
4.1 General information:	In case of occurrence of ill health doctor.
4.2 Important acute and delayed symptoms and effects:	No data available.
After inhaling:	Fresh air; in case of disorders, please contact a doctor.
After swallowing:	Rinse out the mouth and drink water afterwards. In case of continuous disorders, a doctor should be consulted
After skin contact:	Wash with water and soap
After eye contact:	Rinse eyes 10 min. under running water and consult a doctor
4.3 Information for the doctor:	No data available.
5. Fire fighting measures	
5.1 Suitable extinguishing aids:	Product does not burn. Fighting measures environments vote.
5.2 Special exposure hazards arising from the substance or preparation itself, combustion products, resulting gases:	Not known
5.3 Protective equipment:	Not known
6. Accidental release measures	
6.1 Person-related safety precautions:	If the effects of fumes dust aerosol: aerosols. Use in the absence of aspiration breathing. Ensure adequate ventilation.
6.2 Measures for environmental protection:	Remains/Dental scrap should be disposed environmentally friendly. Swarf is not allowed to enter drainage system, surface or ground water.
6.3 Measures for cleaning/collecting:	Dry grinding dust by mechanical means or suckers record and disposal in appropriate containers fill, dust generation. Not use compressed air blow not.
6.4 Reference to other sections:	see section 4.ff
7. Handling and storage	
7.1 Information for safe handling:	The product does not pose any health risks. However, in order to guarantee the quality and the stability of the product, we recommend the transport and handling at room temperature. It carries no risk of electrostatic discharge.
7.2 Conditions for safe storage, including intolerances:	The product should be stored in closed bags to protect from moisture; if possible in a well ventilated area. Large temperature differences must be avoided because they could lead to clogging in the sacks. The packages must be secured against sliding, overturning, rolling and falling. (LGK 13 - Non-combustible solids). No special requirements necessary.
Common storage notes:	Not mandatory

Safety Data Sheet
-Aluminium oxide pure white-
-Aluminium oxide pure brown-

According to EG 1907/2006 (REACH)

Versions-No.: 05

 Replaces version No. 04 from 05/2015

Storage and container:	Only store in original package. The delivery units need to be protected against sliding, overturning, rolling and falling.
Further information about storage conditions:	Dry place; if possible at room temperature
Storage class: Classification according to Ordinal on Industrial Safety and Health:	VCI - LGK 13 (non-flammable solids) deleted
7.3 Specific end uses:	Corundum is used for production or use as a blasting or abrasive media.
8. Exposure controls and personal protection	
8.1 To be monitored parameter:	If you can not avoid using a suitable ventilation of the workplace exposure of the product and if the concentrations are lower than or equal to 10 times the limit TWA, we recommend the staff a respirator FFP2 against dust to wear. Inhaled fraction 10mg/m3 Alveolar fraction 3mg/m3 With an exceeding factor 4 under Technical Rules for Hazardous Substances (TRGS) 901-96.
8.2 Limiting and monitoring exposure:	Technical measures and the application of adequate working procedures shall have priority over the use of personal protection equipment. The Corundum is not a hazardous material, therefore only the generally applicable dust limit is applicable. Respect the fine dust limits according to TRGS 402 + TRGS 900.
Personal protective equipment:	Wear safety shoes. Respiratory protection: In case of insufficient ventilation or exceeding occupational limit values a respirator should be worn. Hand protection Material: Leather Tightly sealed goggles (goggles) in accordance with EN 166: 2001 With normal use, no body armor by a half or full protective suit and boots are required. Minimum standards for protective measures when handling working substances are listed in TRGS 500th
General protective and hygienic measures:	When using do not eat, drink, smoke or take drugs. Avoid contact with skin, eyes and clothes. Remove soiled or soaked clothing immediately. Wash hands before breaks and at end of work. Protect skin by using skin creams. Do not breathe dust.
9. Physical and chemical properties	
9.1 Information on basic physical and chemical properties:	Appearance: Edged Physical state: solid Color: White, brown Odour: Odourless

	<p>Explosion hazard: The product is not explosive However, formation of explosive Air / dust mixtures are possible.</p> <p>Lower Explosive Limit: None known Upper explosion limit: Not known Vapor pressure: not relevant Specific Gravity: approx 3.9 to 4.1 g / cm³ Flow time: Not relevant Water: Insoluble in water pH: n.s.a. (Not meaningfully applicable) Boiling point: range n.s.a. (Not meaningfully applicable) Flash point: Not applicable, as the product is non-flammable Melting point: 2,000 ° C Ignition temperature: Not applicable, as the product nonflammable</p>
9.2 Other information:	Information about the explosion limits refer to corundum.
10. Stability and reactivity	
<p>10.1 Reactivity: - - - 10.2 Chemical stability: - - - 10.3 Possibility of hazardous reactions: - - - 10.4 Conditions to avoid: 10.5 Incompatible materials: 10.6 Hazardous decomposition products:</p>	<p>If the product is used properly, no conditions to be avoided Are known. If the product is used properly, no dangerous reactions are to be expected.</p> <p>not applicable</p> <p>If the product is used properly, no dangerous decomposition Products are to be expected.</p>
11. Toxicological information	
11.1 Information on toxicological effects:	<p>Toxicokinetics, metabolism and distribution: No silicosis, toxic and carcinogenic components in the product standard and corundum contain lt. IFA Opinion no. 2014/21049/9311 from 04.14.2014 mat-loe</p> <p>Acute effects (toxicity, irritation and corrosivity): No data available for the product.</p> <p>Sensitisation (skin, respiratory tract): No data available for the product.</p> <p>Repeated dose toxicity (subacute, subchronic, chronic): No known toxicity of corundum.</p> <p>CMR effects (Carcinogenicity, mutagenicity and toxicity for reproduction): lt. IFA appraisals no carcinogenic effect</p> <p>Summarized evaluation of the CMR properties: Not known</p> <p>Practical experience (relevant for classification and other observations): Not known</p> <p>Other Information: Alumina: LD 50> 5000 mg * kg⁻¹ (rat, orally)</p>

Safety Data Sheet

12. Ecological information	
12.1 Acute toxicity:	<p>Ecotoxicity: No environmental problems expected to occur with correct handling and use.</p> <p>Fish toxicity: Harmful effects for aquatic organisms are not expected. Aquatic Invertebrates: Harmful effects for aquatic organisms are not expected.</p> <p>Aquatic plants: Harmful effects for aquatic organisms are not expected.</p>
12.2 Persistence and degradability:	The product is inert, according to previous experiences and not degradable.
12.3 Bioaccumulative potential:	Accumulation in biological materials is unlikely, since inert and insoluble.
12.4 Mobility in soil:	This product is not mobile experience to date.
12.5 Results of PBT and vPvB assessment:	The ingredients in this product does not meet the criteria for classification as PBT or vPvB.
12.6 Other adverse effects:	not known
13. Disposal considerations	
13.1 Waste treatment Methods:	<p>Substance / Preparation: corundum</p> <p>Disposal of the product with commercial cleaning equipment in accordance with the country-specific legal regulations.</p> <p>Waste key in accordance with Regulation Wastes (AVV): 120117 rays means wastes other than those covered by the 120116th</p> <p>Packagings: Packaging with residues in paper bags or big bags can be recycled.</p> <p>Cleaned packaging: The packaging can be used after cleaning or re-used material.</p>
14. Transport information	
14.1 UN number:	- - -
14.2 UN proper shipping Name:	not applicable
14.3 Transport Hazard classes:	<p>No hazardous material according to transport regulations ::</p> <ul style="list-style-type: none"> - Land transport by rail and by road RTMDR / F, ADR / RID unclassified - Sea transport unclassified - Inland waterway transport ADNR unclassified - Air transport ICAO-TI unclassified
14.4 Packing Group:	not applicable
14.5 Environmental hazards:	<p>see section 13</p> <p>Not hazardous to water; According to VwVwS, Annex 4</p>
